
FICHA TÉCNICA

PRODUCT: SOYWAX LMP

Melt Point, Mettler AOCS, Cc 18-80, °F (°C)	122 (50)
Needle Penetration ASTM, D 1321-65, 1/10 mm	44
Specific Gravity ASTM, D 1298-55 @ 190°F, (87.8°C)	0.895
Congeaing Point ASTM, D 938-60 °F (°C)	100 (37.8)
Viscosity, Brookfield @ 190°F, (87.8°C), cps	10
Peroxide Value AOCS, Cd 8-53, Me/Kg	2 max
Saponification # AOCS, Cd 3-25	190
Color, Red AOCS, 13b-45 Units	2 max
Flash Point ASTM, D-92 °F (°C)	450 min (233 min)

We submitted all soywax to be analyzed and scrutinized for the presence of pesticides, and herbicides by experienced third party Accredited Laboratories. All results have proven that soywax contain NONE of these substances.

We use good, old-fashioned, earth grown soybeans to create all our environmentally friendly soy waxes. are further enhanced with the finest carefully selected botanical oils, adding to their performance characteristics. All soy waxes are guaranteed to contain NO petroleum, paraffin or beeswax products and all soy waxes are 100% vegetable.

Every ingredient has been approved by the United States Food and Drug Administration and Kosher Certification criteria. Every pound of our wax is analyzed in a state of the art laboratory to assure its quality. soy wax only leaves the plant after receiving a Certificate of Analysis, guaranteeing our high standards are met.

Soy waxes perform so consistent with easily reproducible results, there is no need to add paraffin.

All soy waxes:

- Are made in the USA with DOMESTICALLY grown crops.
- Are 100% vegetable, made with Pure Soybean oil, GUARANTEED!
- Are all NATURAL and biodegradable.
- Are manufactured meeting FDA standards.
- Are Kosher Certified.
- Are NOT tested on animals.
- Are FREE of palm wax.
- Are FREE of petroleum, paraffin or beeswax products.
- Are FREE of pesticides and herbicides.
- Are FREE of toxic materials.
- Are FREE of Genetically Modified Material.

Our wax is made using soy beans from U.S. farms only! When you use soywax, you are supporting countless farmers across the country.

There are many benefits to using soywax as a candle wax instead of traditional waxes, such as beeswax, paraffin wax and palm wax. Our wax is:

Kosher Certified

All soy wax is Kosher Certified, proving our commitment to providing safe and healthy products.

Does Not Stain

Soy wax does not stain, so you don't have to worry about ruining clothing, furniture or other items.

Burns Cooler

Avoid wax burns knowing that soy wax burns at a cooler temperature.

Safe for Children

Soy wax is non-toxic and burns at a cooler temperature for worry-free use around children.

Great for "Scenterior" Decorating

The consistency of soy wax allows for candles with a stronger scent and a purer scent throw. This creates great candles with the desired scent for any environment.

Environmental

Many people are searching for green products to replace more traditional ones that are unfriendly towards the environment. By using soy wax candles you are choosing to support the environment. Feel great while still enjoying the ambiance you are accustomed to.

Renewable

Soy is a resource that can be replaced at a rate comparable or faster to the rate of consumption.

Sustainable

Soy is continually producible without damaging the ecosystem.

Patriotic

Every pound of soy wax sold enhances the strength of the US agriculture sector and supports the American farmer.

"Creating and following practices that are self-sustaining with a top concern on taking environmental and social responsibility for all aspects of developing our products."
